Our Mission

CareNet believes in the sanctity of human life. We are a service organization committed to dramatically reducing the number of lives lost to or harmed by abortion. We offer abortion alternatives, evangelism, post-abortion healing, and promote sexual purity.

2015 Total Income - \$202,776.03

2015 Total Expenses - \$170,329.69

The Choice

The most sorrowful outcome of choosing abortion for the woman is that her relationship with God is vastly affected.

As for the man, God divinely appointed him to lead, love, and provide. Sadly, when the woman and the baby need him most, he often walks away.

Young people feel they have nowhere to turn, so they do what they believe is an easy way out - abort the baby. Tragically 2,904 abortions are performed each day in the United States alone.

“Since Roe V. Wade in 1973, at least 1,000,000 children every year have lost their lives, & countless women & men have had to suffer the negative consequences.”

Jeanineane Maxon Former VP & General Counsel
Americans United for Life

According to The Guttmacher Institute:

65% of women who get an abortion identify themselves as Protestant or Catholic.

In 2011, 1,058,500 women had abortions in the United States, a rate of 16.9 abortions per 1,000 women of reproductive age. This is a decline of 13% since 2008, when it was 19.4 abortions per 1,000 women aged 15-44.

In Tennessee 16,720 abortions were performed in 2011, which is down from 19,550 in 2008.

The Reasons Given for having an abortion:

- Concern for or responsibility to other people
- Cannot afford a child
- A baby would interfere with work or school
- Don't want to be a single parent or having trouble with husband or partner
