

CARENET ANNUAL REPORT 2019

WHY WE DO WHAT WE DO

According to the CDC, as of 2014, an average of 17,656 preborn children have been aborted each year in Tennessee alone since Roe v Wade in 1973. A little over 48 lives were lost per day.

While abortion has been framed as a “woman’s choice”, the truth is that most abortions are “chosen” by women who feel trapped, lonely, desperate – believing they have no choice.

CareNet Pregnancy Medical Center was founded in 1993 to give women life-affirming alternatives to abortion; alternatives that would provide loving support and comprehensive information to help them and their families make informed choices.

While CareNet’s work is focused on sharing the Gospel and saving the lives of unborn children, we know that victory lies not only in choosing life for their children but giving those children and their families’ abundant life. We also focus on strengthening families through marriage, parenting, adoption, and other life-affirming alternatives to abortion. The alternatives honor God’s design for family life and Christ’s desire that we all have abundant life.

We offer compassion, hope, and help to women and men facing pregnancy decisions.

Compassion

The heart of our service is the loving support we offer our clients. That is why we don’t just offer information – we offer a listening ear, an encouraging smile, and a shoulder to cry on. We are here to offer emotional, relational and spiritual support, as well as physical and material assistance.

Hope

Once our clients know we care about them, our goal is to provide them with the full spectrum of medically accurate information they need to make an informed choice. Often we are our clients’ only resource of comprehensive information on alternatives to abortion. We also offer our clients the opportunity to learn about the ultimate source of eternal hope – a relationship with Jesus Christ.

Help

We understand that life decisions require life support; therefore, we provide our clients with material support, free resources (such as pregnancy tests and ultrasounds), education, and referral to community resources. A helping hand goes a long way in helping women and men choose life for their unborn children.

**We are here to make a difference.
Your partnership with us makes it all possible!**

PREGNANCY SERVICES

IN THEIR OWN WORDS

"I learned that I have a choice for me and my child."

"CareNet not only offers classes but will help if I feel the need to be even closer to God."

"I learned about the options of resources and received my first mom book. Also was able to open up to somebody who felt caring."

"I loved my client advocate and am very thankful she is working with CareNet. She has been more helpful than she knows."

"I learned that no matter how many kids you have each pregnancy is different and still can be scary. It's good to have a place like CareNet to talk to."

"My Advocate was amazing. She made me feel comfortable. Also, I'm glad she asked to pray for me before I left. She said she's new, make sure to keep her."

"I really enjoyed being free to say how I feel about my beliefs and am feeling like this is God's plan for us."

"I learned a lot today, but I guess the most important was I have so many people behind me to support me."

Life Impact

Jess* was a client we recently had the pleasure of meeting at CareNet. She came to the center seeking a pregnancy test and ultrasound. She was undecided about her intentions with the pregnancy and wanted to explore all her options. She had recently finished college and was getting ready to take her final test for certification. She and the father of the baby were talking about marriage but wanted to finish school and get jobs. She was feeling overwhelmed and confused.

Jess shared that the father of the baby was her first and only partner and that she knew she should have been abstinent, but things just happened. She shared that she lived with her parents and did not want them to know until she decided what to do. She made an appointment for an ultrasound and both she and the father of the baby came to the appointment. The father of the baby was very curious and serious and asked lots of questions during the ultrasound. Jess stated she was dreading telling her parents and family.

She left the ultrasound appointment still undecided. The timing of the pregnancy wasn't fitting in her schedule. A follow-up call was made by our nurse a few weeks later. The client indicated she had told her parents about the pregnancy and said, "it was rocky, but we are taking it day by day." She shared that she and the father of the baby were "doing well" and plan to "keep the baby."

So thankful CareNet Staff was able to meet with her to assure her of God's love for her and to be able to provide information and services that allowed Jess to make an informed decision regarding her pregnancy.
